KONETIK™
By Pamex

Welcome to a New Level of Access Control.

Your Trusted Partner.

WORKING TOGETHER WITH ARCHITECTS & DEVELOPERS TO GET THE PROJECT COMPLETED ON TIME AND WITHIN BUDGET.

We're here for you every step of the way. Our number one priority is that we help make your project successful. When you choose the **KONETIK**™ System you will get a dedicated team that will assist you with:

- Door hardware specification writing
- Keying schedule audit
- Adherence to codes and compliance
- Programming of software and hardware
- Software training for property owners & staff
- Ongoing support for your property management team

Improve Property Value

Modernize the look of your property and enjoy improved tenant satisfaction with a more sophisticated locking solution.

Increase Safety & Security

Flexible design and configuration, coupled with historical access logs, makes the new **KONETIK**™ System our most reliable and secure solution to date.

Easy Programming & Maintenance

Efficiently manage access with the peace of mind knowing that Pamex, Inc. will train and support each of your property managers even after your project is complete.

Variety of Options

From customizing your site design to offering you an array of finishes, we will work with your specific project needs.

Secure Your Properties with Enhanced Control & Style.

KONETIK™ Access Control System

Backed by the quality and reliability our clients have grown to trust, the new **KONETIK**™ Access Control System was designed with property managers in mind. From start to finish, we've got you covered.

CUSTOM SITE DESIGN
- Customize access to your needs
- Assign access by area, zone, building, unit or department
- Setup as many management or user accounts as needed

INTELLIGENT LOCKSET PROGRAMING
- Easily transfer your site design to your tablet or smart phone
- Quickly program locksets via Bluetooth 4.0
- Remove access for employees or tenants efficiently
- Create access with custom time and date durations
- Assign up to 500 users per lock

ENHANCED SECURITY & MAINTENANCE
- Reduce the costs, space and hassle of managing keys
- Improved management all of your locks
- Monitor your lock's access history of up to 6,000 events

Family of Products

KONETIK™
Interconnects

Managing tenant units has never been easier with our new electronic interconnects. This keyless entry option offers quick reprogramming of your locksets.

KONETIK™
Wall Reader

Manage access to your common areas such as a pool or fitness center with the KONETIK™ Software Suite.

KONETIK™
Software Suite

Access control hub for the new **KONETIK**™ system. Use it on your laptop and tablet with the Android app to program your locksets & wall readers.

KONETIK™
Deadbolt

Manage your primary entrances with prescheduled time-based access control for both tenants and staff.

KONETIK™
Leverset

Now, employees and tenants can be easily granted access at specific times or have access quickly revoked by your property management staff. Perfect for your office areas!
