

EF5000/AFL

Auxiliary Fire Bolt

FEATURES & OPTIONS

Part of fire rated Less-Bottom-Rod exit device installation.

Application

In a fire, the bolt extends into the strike hole in the opposite door leaf to keep the doors in alignment.

The cap visible on the face of the auxiliary fire bolt and the strike hole plug must melt in order for the bolt to extend.

Handing

Non-handed.

Material

Steel

WARRANTY

- Ten years mechanical warranty
- Five years finish warranty
